

Opportunities to join the Silverstone Park community

Located at the heart of the Silverstone Technology Cluster, where we are creating a global destination for engineering, innovation and business development.

Companies in the cluster are involved in many different high-tech activities including engineering, electronics and software design, and they are applying their skills and capabilities in a wide range of sectors including aerospace, medical devices, defence, marine and motorsport.

If your company is looking to enter or expand in the UK then Silverstone Park provides an unprecedented opportunity to join a growing community of like-minded people where the supply chain and skills pool is local and the business opportunities are global.

As an international business you will benefit from a soft landing package including:

- Becoming part of the Silverstone Technology Cluster network
- Access to the MEPC Silverstone Park Metrology Facility
- Access to professional meeting rooms at Silverstone Park to conduct business meetings
- Virtual tenancy arrangements, providing a Silverstone Park address and telephone answering and call directing service
- Access to professional service organisations for banking, HR, and legal advice
- Networking opportunities with high-tech companies for business development and JV and M&A activity

There are currently over 70 companies on-site and with **2.1m sq ft of planning consent available** and significant demand identified in the market, the Park is set to grow to over 250 companies.

A diverse range of serviced office, industrial units and R&D workshop accommodation is available to let, and standalone buildings can be developed to suit a company's specific requirements.

Join our dynamic and vibrant community and enjoy fantastic networking opportunities, access to a world leading supply chain and a place your business can call home for many years to come.

From here you can change your world.
