

Welcome to our new agile work space at Silverstone Park Innovation Centre

Designed to provide an attractive place to **'work, rest & play'**.

WORK – because it's a convenient space between meetings, a perfect location to work day-to-day on an ad hoc basis, with space to make private calls and a comfy sofa area which can be used to give informal presentations.

REST – because we have created an area where the lights can be dimmed and you can sit by a log fire! This can be somewhere to catch up with your reading or your own thoughts. There's also seating by the windows so people can bring their lunch, look out at the view and have a well-deserved break from the desk.

PLAY – we're planning regular gatherings with free beer, wine and other refreshments where people can chat with friends from work and try their skills on the Playstation™ games.

Included are:

- Relaxing sofa/lounge waiting area
- Acoustic swivel booth for private phone calls
- Courtesy high-speed Wi-Fi connection
- Kitchen-style work desk with PC and mobile device (USB) power points
- Games console (Playstation™)
- Bistro tables
- Live TV news feed
- Complimentary light refreshments (tea/coffee)

£10 per day
subject to change

We always welcome your feedback. Feel free to let us know how you are enjoying WRaP.
